October 2015

# Kansas State Board of **Technical Professions**

# **AGENCY MISSION**

The Mission of the Kansas State Board of Technical Professions is to provide maximum protection of the health, safety, property and welfare of the people of Kansas by assuring that the practice of architecture, engineering, geology, landscape architecture and surveying in the state is carried out only by those persons who are proven to be qualified as prescribed by the statutes and rules and regulations of the Board.

# **Women Making History**

As of July 1, 2015, the Kansas Board of Technical Professions is making history! For the first time, two women are currently serving on the Board. Wendy Ornelas, Architect, has served since 2008, and Carisa McMullen, L.A. was recently appointed to the Board in July.

Other women who have served on the Board through the years: Mary Kopp, Public Member, Nancy (Macy) Peterson, Public Member, and Jan Montgomery, Public Member.

Kansas licensees represent many diverse backgrounds. A special thank you goes to all individuals who serve on the Kansas Board of Technical Professions. As a way of introducing our Board members, two questions were asked of Ms. McMullen and Ms. Ornelas.

## 1.) How has your past experience prepared you for this office?

**McMullen**: I have been very fortunate to have a career that includes working both for a public agency and in private industry. My private industry experience includes working for a smaller engineering firm, a large architecture firm and now have owned my own practice for the last 15 years. What this exposure has provided is a wide perspective from practicing professionals throughout multiple disciplines. I appreciate the issues that thread through each design profession and also those that are specific to a particular industry. In addition, as a busi-

ness owner, I have experience with company licensing. With a multi-discipline state board, having this foundation will allow me to plug into the board activities and responsibilities quickly with an understanding of each disciplines' challenges and opportunities.

**Ornelas**: Prior to joining the KSBTP I had the opportunity to serve the architectural profession through numer-

ous means. I was president of AIA Kansas; served as regional director on the Board of the Association of Collegiate Schools of Architecture (ACSA); was a member of various national ACSA, AIA and NCARB committees; and had just begun serving on the National Architectural Accrediting Board (NAAB – for which I served as president during my term on KSBTP). While I thought I was prepared, the issues that are brought before the Board are substantially different, and more focused on the health, safety and welfare of the public. After nearly seven years I feel like I just now understand the variety of complex matters brought before the KSBTP.

# **Disciplinary Action Taken by the Board**

## IN THE MATTER OF ROGER SWART, P.S.

Mark L. Bennett, Jr.
Board Attorney

Disclaimer: Every effort has been made to ensure that the following enforcement information is correct; however, this information should not be relied upon without verification from the Kansas board office. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Disciplinary orders are public information and copies may be obtained by contacting the board office.

**Summary:** In January 2015 the Kansas State Board of Technical Professions received a report of alleged violation from a Kansas licensed professional surveyor regarding the surveying practices of Roger Swart, a Kansas licensed professional surveyor. The alleged violation was that Mr. Swart had deviated from generally accepted surveying practices and/or the minimum standards for boundary surveys by:

- 1. Failing to file section corner report for 3 surveys he performed in Gray County, Kansas with the Kansas State Historical Society, and
- 2. Failing to file section corner reports for 18 surveys he performed in Finney County, Kansas with the Kansas State Historical Society.

An investigation by one of the Board's investigators confirmed the allegations received from the complainant.

**Board Action:** The Board and Mr. Swart resolved this matter by way of a Settlement Agreement and Consent Order. In the Settlement Agreement Mr. Swart admitted his failure to file the above referenced section corner reports with the Kansas State Historical Society and, in failing to do so, deviated from acceptable surveying practices and/or minimum standards for boundary surveys. He also agreed to immediately conform his surveying practices to generally accepted practices in Kansas, and to the minimum standards for boundary surveys as adopted by the Board in K.A.R. 66-12-1.

Mr. Swart also agreed to file the required reference reports for the 21 survey reports with the Kansas State Historical Society on or before June 30, 2015, and provide proof of said filings no later than July 10, 2015.

Additionally, Mr. Swart agreed to pay the Board's expenses, including attorney fees and investigation costs incurred in the investigation and prosecution of the matter in the amount of \$2,832.19, and a fine in the amount of \$3,000 for a total of \$5,832.19 to be paid on or before July 10, 2015.

**Status:** The fine and costs have been paid in full.

#### What is the difference between a Kansas Statute and a Kansas Regulation?

#### Kansas Statutes

Statutes are laws enacted by the Kansas legislature. The Kansas Statutes Annotated (K.S.A.) are published by the Kansas Revisor of Statutes, but distributed by the Kansas Secretary of State's office.

#### Kansas Regulations

Regulations are enacted by an agency to implement or interpret legislation. All regulations are filed in the Secretary of State's Office and published in the *Kansas Administrative Regulations (K.A.R.)*.

A Statute is the law and the Regulation further defines the law.

The Kansas Statutes and Regulations regarding the KSBTP may be found in a PDF on the KSBTP web page.

# **Women Making History (Cont'd)**

## 2.) What issues and goals do you want to focus on during your term?

<u>McMullen</u>: I am sure this list will expand as I gain more experience on the board, however, I do have several goals for my term.

- 1) New graduates entering the profession need to have a title that designates their level of education and their place in the workforce. Currently, landscape designer or planner are the terms that are used for land-scape architects upon graduation. This is not necessarily an accurate representation of one's skills and abilities. Architects also have a similar issue. If there was an accepted standard designation for these pre-licensed professionals, it would eliminate the error of using "architect intern" or "landscape architect-intraining" titles.
- 2) I would like to work to provide more resources for practicing professionals to avoid some of the more common pitfalls. This might include situations when practicing across state lines, professionals with lapsed licenses, quick references to other state's statutes, etc. These types of resources would also be valuable to municipalities responsible for approving plans from various professionals to ensure the state's statutes are upheld.
- 3) My third goal involves students at accredited universities. As landscape architecture professionals continue to expand their degree into various fields and practices, it is important to promote and advocate to students the value of obtaining a license. Ensuring a strong base of licensed professionals is important for overall public safety and is also important for the integrity of the profession.

Overall, my goal is to continue to promote design professionals, specifically landscape architecture, among my colleagues, other design professionals, students, the public and our legislature to ensure our livelihood is maintained, valued and respected. In addition, I want to look for ways this Board can be a proactive resource for practicing design professionals.

<u>Ornelas</u>: My goals are threefold: First, as an academic I want to make sure the path to licensure is fair, but not onerous. Having an academic voice to help to work through these issues nationally is an important task.

Second, making sure the processes and issues brought before KSBTP are treated in a fair, equitable, and professional manner, and helping the Board come into the 21st century through technology and differing ways of thinking.

And lastly, being an advocate and role model for young professionals to know the value of becoming licensed.

# **CLARB 2015 Annual Meeting**

Carisa McMullen, L.A., new KSBTP Board Member, represented Kansas at the CLARB (Council of Landscape Architect Registration Boards) annual meeting in September 2015 in New Orleans, LA.

Pictured from left to right, Randy Weatherly, L.A., CLARB President; Jerany Jackson, L.A., CLARB Past President; Phil Meyer, L.A., CLARB Secretary and former KSBTP Board Member; and Carisa McMullen, L.A., KSBTP current Board Member.

# NCEES seeks architectural engineers' professional expertise and advice

#### October 9, 2015

NCEES is currently seeking licensed architectural engineers to participate in a professional activities and knowledge study, or PAKS, for the PE Architectural Engineering exam. The results of this online survey will be used to update specifications for the exam, which is used throughout the United States for licensing purposes.

NCEES requires a cross section of licensed professional engineers practicing architectural engineering—including those working in industry, consulting, the public sector, and academia—to complete an online survey. The survey will help determine the knowledge and skills required of a licensed architectural engineer with 4 to 6 years of experience to practice in a manner that safeguards the health, safety, and welfare of the public. The survey can be completed in about 25 minutes.

"These studies help NCEES ensure its licensing exams remain relevant to current professional practice," explained Director of Exam Services Tim Miller, P.E. "The value of this PAKS depends on the number of people who participate, so NCEES is eager to get a large response from P.E.s across all areas of architectural engineering."

For access to the online survey, visit <a href="ncees.org/PEArch">ncees.org/PEArch</a>. Responses must be received by **November 22**, **2015**.

#### For more information contact:

Susan Cline, P.E. NCEES Exam Development Engineer scline@ncees.org 864-654-6824

# **2015 NCEES Annual Meeting Report**

At the annual meeting, NCEES member boards voted to fund a meeting of surveying organizations to discuss how to best attract a diverse cross section of people to the profession. The group will recommend additional outreach opportunities to promote surveying as a career, including potential collaborations with other organizations.

Delegates also voted to implement a new initiative to support surveying education at the college level. The program will recognize up to 10 professional surveying programs of distinction each year, awarding each up to \$10,000. NCEES staff and members will work together in the coming year to

develop the program, including finalizing award criteria.

These efforts to promote the surveying profession follow the work of the Future of Surveying Task Force, which was formed in 2014 to address the decline in the number of surveyors entering the profession in the United States

For more information, contact NCEES at ncees.org.

# Landscape Architects & Business Entities with Names M-Z

#### **Watch for Your Renewal Notice!**

**Landscape Architects** whose last names begin with M-Z should receive notice of renewal in early November. Your license will expire on December 31, 2015. Renew your license on line on the Board's website at <a href="https://www.ksbtp.ks.gov">www.ksbtp.ks.gov</a>

**Business Entities** whose names begin with M-Z should also receive notice of renewal in early November. The KSBTP Certificate of Authorization will expire on December 31, 2015. Renew on the Board's website at www.ksbtp.ks.gov

Only licensees can ask to have your "address of record" changed in our system. Address corrections received from returned mail will not be substituted for the last address you provided to the Board Office. License cancellations often occur because of an outdated mailing address.

Do you have a current address listed with the Board Office? Renewal notices are mailed to the address on record. If you have moved or changed jobs since your last renewal and have not notified the Board of your new address, do so now! Be sure to notify the Board office whenever your mailing address needs to be updated. "It's the law." K.S.A. 74-7025 states ". . . The licensee shall notify the board in writing of any change of address within 30 days after the date of such change. . . . "

#### **DID YOU KNOW?**

If you mark 'yes' on your RENEWAL for the disciplinary action or administrative action against your license, your renewal will be reviewed and we may contact you for more information. Please see <u>K.S.A. 74-7026</u> for more information.

# **Continuing Education Information**

# Listed Below Are Acceptable Documentation & Helpful Suggestions

- Conferences and Online Classes: Providers should prepare a certificate that indicates your name, program title, date, number of hours/pdh's attended/earned, and signature by sponsor. At conventions, the only documentation you may have is a program of events. If there are multiple CE presentations, mark the ones you attended. If no times are listed, note the amount of time for each presentation. Be sure there is a date on the schedule. At other CE offerings, you may need to keep the brochure, outline, or objectives as documentation.
- Companies are now offering in-house programs. Some maintain a computerized record for the employee that will be accepted as documentation of attendance by the Board. It needs to be signed by someone from the company.

You may only have a memo or bulletin that announces the offering. A copy of the attendance roster can also serve as documentation. Again title of offering, date, and hours/pdh's are needed as well as your own name on any documents.

- A bulletin or agenda that contains your name as the instructor can be used to document teaching activities. If that is not available, provide a letter from the employing agency.
- If you authored an article or paper, please see <u>K.A.R 66-14-5(a)(3)</u> for more information.
- Actively participating in a professional organization as an officer or committee member may be documented by a copy of the minutes from a meeting that shows your attendance. A copy of a newsletter or bulletin announcing officers or committee members may also be used. If applying for more than one year, minutes from both periods of time will be required. Remember you get two PDHs for each year of participation. Examples of professional organizations include KSPE (Kansas Society of Professional Engineers) or KSLS (Kansas Society of Land Surveyors).
- College courses can be documented by a college transcript or grade report.
- The Board accepts the AIA transcript as documentation of attendance. If you send the AIA transcript, please stamp an impression of your seal, name, and date on it. The audit report form should still be completed.

# **Continuing Education FAQs**

- Q) <u>Do I need to contact the Board office to get my continuing education activity approved?</u>
- A) No. According to K.A.R. 66-14-5, it is the final authority of the Board of Technical Professions to approve the continuing education credit. However, the present board will not make a determination regarding continuing education activity that is subject to the final ruling of a future board. Therefore, the Board is placing the responsibility on each licensee to use their best professional judgment by reading and utilizing the rules and regulations to determine whether the activity being considered meets the continuing education requirements.

# Q) <u>How do I report my continuing education activity to</u> the Board?

A) At the time of your licensure renewal, you will certify during the online renewal process that you have complied with the continuing education requirements stated in the rules and regulations. If you are audited and fail to furnish the information that is required by the Board, your license will not be renewed or may be cancelled.

# Q) <u>I'm a retired 69 year old professional engineer</u>. Do I need to obtain continuing education?

A) If you are over the age of 60, you could place your license on **Emeritus** status. **Emeritus** status does not require biennial renewal and allows you to keep your designation as long as you follow it with the word **Emeritus**.

You could place your license on **Inactive** status. Inactive status still requires biennial renewal and the renewal fee but you are exempt from continuing education during that renewal period.

While on **Emeritus** or **Inactive** status, you will not be able to practice or offer to practice in Kansas in any capacity, including as a consultant.

For more information, see our website.

#### CONTINUING EDUCATION AUDIT CHANGES

September 2015 has brought about a change to our Continuing Education Audit Process. Switching to post renewal audits allows the Audit packages to be mailed (to randomly selected individuals) once the renewal process is complete; thus streamlining the process to only audit those who are on "active" status within our system. More continuing education information can be found on our website.

# 96th NCARB Annual Meeting Report

By Vince Mancini, Architect

The 96th annual meeting of the National Council of Architectural Registration Boards was June 17 through June 20, 2015 in New Orleans, LA. Voting delegates from 53 of the 54 Member State Registration Boards were represented at the meeting and conference. Representing the Kansas State Board of Technical Professions were architect members Wendy Ornelas FAIA, Vince Mancini AIA, and Executive Director Mary Leigh Dyck. KSBTP Architect Board Member Dave Hoffman was also present representing NCARB Region 5 (Kansas, Montana, North Dakota, Oklahoma, South Dakota and Wyoming) and as a Candidate for NCARB 2015 - 2016 Treasurer.

This year three Resolutions were presented to Member Boards. Following is a brief summary of each Resolution and the action taken on each by the Member Boards:

- Resolution 01: Certification Guidelines Amendment Revision of the Alternatives to the Education and Experience requirements for Certification. Through this proposal, licensed architects who are NCARB candidates without a degree from a NAAB accredited program are provided a path to overcome deficiencies in their education thru evaluation and verification of their experience. This proposal did not pass and received a 27 26 vote from Member Boards. This proposal will be re-evaluated and represented in the future as the concept received support during discussions.
- Resolution 02: Certification Guidelines Amendment Revision of the requirements for Certification of Foreign Architects. This proposal maintains existing Education and Registration requirements and adds requirements to complete the IDP and pass the ARE. This proposal passed and received a 49 4 vote from Member Boards.
- Bylaws Amendment Modifications to the Qualifications of Public Director on Council Board of Directors. This proposal amends the NCARB Bylaws to allow public members who serve on Member Boards to fill the public director position on the Council Board of Directors. This proposal passed and received a 44 -9 vote from Member Boards.

#### NCARB Election results for FY 2015 - 2016:

President/ Board Chair: Dennis S. Ward, AIA, NCARB, Florence, South Carolina

First Vice President/President Elect: Kristine A. Harding, AIA, NCARB, Huntsville, Alabama

Second Vice President: Gregory L. Erny, AIA, NCARB, Reno, Nevada

Treasurer: David L. Hoffman FAIA, NCARB, Wichita, Kansas

Secretary: Terry L. Allers, AIA, NCARB. Fort Dodge, Iowa

We are pleased that KSBTP, Architect Member of the Board, David L. Hoffman, FAIA, Wichita, Kansas has been elected NCARB Treasurer.

#### **KSBTP Current Licensees**

# **Updated Applications & Forms**

We recently updated all of our applications and forms. Make sure you are using the most up-to-date forms from our website. Currently, those forms show a "10.15" in the corner of the application.

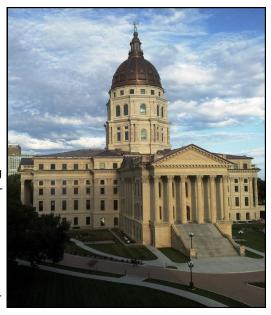

## **Fifth Floor Views**

We all should be passionate about learning. Continuing education is a ticket to learn new things, go new directions and try new concepts.

Continuing education is not a punishment, it is an opportunity. Why would anyone squander the opportunity to develop a new skill, become an expert on a topic, or expand horizons on a particular subject?

Continuing education also validates your professional knowledge. Continuing education reaffirms why you became the professional you are today. Continuing education can inform you of the newest ideas in your profession. By using quality continuing education providers and classes, you have the opportunity to solve past issues or reimagine solutions to current issues. It is important to make each PDH count!

Kansas licensees have a reputation for high standards of licensure, ethics and principles. Kansas also requires 30 PDHs of Continuing Education for every biennial renewal. This demonstrates the high level of commitment Kansas licensees attribute to staying current in a profession.

The Kansas Board of Technical Professions revised several continuing education regulations effective September 1, 2015. Among the most important revisions? Carryover hours were reduced to 15 PDHs per renewal period, mentoring is not allowable as a continuing education activity and the definition of continuing education now reads, "The activity has a definable purpose and objective relevant to the licensee's field of practice". In other words, continuing education should be of value to the licensee regarding the licensee's profession.

So, I'm saying . . . Go! Learn something new! Learning makes things better – a better person, a better career path, a better work-place, a better world. Make continuing education a valuable experience and learn something new!

-Mary Leigh

# Fines & Costs Did You Know?

Fines and costs are often assessed for disciplinary actions by the Kansas Board. The language in Kansas Statute (K.S.A.) 74-7039 explains fines and costs allowed. "The board . . . may assess civil fines after proper notice and an opportunity to be heard, against any person or entity for a violation of the statutes, rules and regulations or orders enforceable by the board in an amount not to exceed \$5,000 for the first violation, \$10,000 for the second violation and \$15,000 for the third violation and for each subsequent violation." All fines collected are deposited in the state treasury to the credit of the state general fund.

The Board attempts to recover costs for the investigation and attorney fees, which are then returned to the Board.

# ASBOG Exam Dates Professional Geology & Fundamentals of Geology

Exam Date Board Filing Deadline

March 18, 2016 December 15, 2015

September 30, 2016 July 15, 2016

# Changes to the Kansas State Specific Exam schedule

NCEES is implementing computer-based testing for Professional Surveyor exams starting October of 2016. With this change, the Kansas Board will start to offer more dates throughout the year to administer the Kansas State Specific Exam. Look for updates on our website regarding upcoming dates.

## **Oops! I Forgot to Renew!**

The Kansas State Board of Technical Professions provides two renewal notices to individuals licensed in one of the Technical Professions in Kansas. This notice is provided as a reminder to the licensee that it is time to renew his/her professional license. The <u>first</u> renewal notice is mailed to the licensee's preferred address at least 30 days prior to the date of expiration. If necessary, a second renewal notice is mailed out about two weeks after the expiration date to the licensee's second address on file. The Board makes an effort to forward returned renewal notices to an alternative address if one is provided by the U.S. Post Office. We also attempt to email the renewal notice to the licensee's if no alternative address is provided by the Post Office. The Board cannot be held responsible if the licensee fails to change their mailing address.

## What happens if I forget to renew?

If you forget to pay your renewal fees or provide a completed form by the Board's deadline, your license will be canceled and you would be practicing illegally. It is necessary to file an application for reinstatement of your license to be current and in good standing in Kansas again. It is your responsibility alone to renew your professional license.

## How do I apply for reinstatement of my Kansas license?

Per 74-7025, you are required to notify the Board of any address changes within 30 days. You can update your address on our website or by contacting the Board.

Email <u>rachel.soden@ksbtp.ks.gov</u> with your address changes.

In order to apply for reinstatement of your Kansas license, you will be required to pay a \$100 reinstatement fee and complete a reinstatement application on forms approved by the Board. You would also be required to provide a list of projects you have worked on since your license has lapsed and the required Continuing Education documentation. The Board also requires that you provide references from at least three individuals currently licensed in the same profession in which you received your license. Your completed application will be presented to the Board for their review.

## Why don't you accept a council record?

A council record will not be accepted in lieu of the requested reinstatement documentation. Information provided in the council record is not always the most current information. We require current references, job lists and continuing education information to ensure you are meeting Kansas requirements for reinstatement.

#### Can I just submit an application for a new license?

No. Once you are licensed in your profession, you cannot get a second license to bypass the reinstatement process. You can only reactivate your license by applying and being approved for reinstatement of your professional license.

# We Need Your Help!

KSBTP is looking for photos from our licensed professionals. We would like images of Kansas projects in all phases of development. We would also like photos showing our professionals in action. We intend on using these images in digital presentations and printed outreach materials. We are looking for photos from licensees of all five Technical Professions.

Photograph submissions can be emailed to <a href="maileo-release">rachel.soden@ksbtp.ks.gov</a>. Please include a signed copy of the photo release located on <a href="maileo-our website">our website</a>. We prefer JPEG files if possible. Make sure to include in the body of the email the image details such as the location of the project and to whom credit should be given.

# **Applications for 2016 Engineering & Surveying Exams**

Examination	Exam Date	Board Filing Deadline	Deadline for Foreign Degree Evaluation
Drofessional Engineering	April 15, 2016	January 15, 2016	January 15, 2016
Professional Engineering	October 28, 2016	June 15, 2016	June 15, 2016
Drofossional Surveyor	April 15, 2016	January 15, 2016	January 15, 2016
Professional Surveyor	October 28, 2016	June 15, 2016	June 15, 2016

The Board is currently accepting applications for the Spring 2016 PE and PS exams. All applications MUST be in the Board office and complete no later than **January 15**, **2016** to be considered for the Spring exam. Please review application forms, including requirements, on the Board's website, <a href="www.ksbtp.ks.gov">www.ksbtp.ks.gov</a>. Any questions concerning the application process should be directed to Maribeth at 785-296-3052. Apply early for best customer service. By receiving an application early, issues may be resolved before the deadline.

## **Professional Engineering Exam FAQs**

The exam deadline is January 15 for the Spring exam and June 15 for the Fall exam. Do all of my supporting documents (transcripts, references etc.) have to be in the Board office by the deadline?

Yes, your application must be complete by the deadline.

#### What if my application is not complete by the deadline? Do I have to apply again?

No. You will continue to provide documents until your application is complete. It will be considered for the next administration of the exam. Documents are kept for one year from date of receipt.

#### How much time should I allow for applying for the exam?

Order transcripts and verifications (if needed) at least two months in advance. Apply early for best customer service.

#### If I complete my four years of experience a few days after the deadline, may I go ahead and apply?

Yes, the Board allows individuals who begin work in the same month as the application deadline (January or June) to apply on or after the first day of that month in the fourth anniversary year.

I graduated four years ago but did not find work for two months. I will have 4 years of experience when I take the exam. May I go ahead and apply?

No. All 4 years of experience need to be met by the date of application.

#### How long will it take to receive exam results?

NCEES releases scores to licensing boards 8-10 weeks after the exams. The scores must be approved by the Kansas Board and then the scores are mailed to you.

#### How do I get my exam results?

This office sends exam result letters to the applicants at their permanent address on file.

DO NOT CALL THE BOARD OFFICE FOR EXAM RESULTS. THEY WILL NOT BE GIVEN OVER THE PHONE.

# Are You Acting as a Reference?

Have you been asked to be a reference for someone who is applying for a license in Kansas?

Please read the Reference forms carefully and complete all questions. **Do not leave blanks**. Reference forms must also be signed and sealed. Incomplete forms will be returned, which can hold up an application. References must be submitted <u>directly</u> from the reference — not the applicant.

Please call the Board Office if you have questions at 785-296-3053.
